S I R:

Further to the Response filed December 12, 2005 (in response to the Office Action dated August 12, 2005), it was noted that two minor errors of a self-evident nature occurred in the equations discussed in the Response. The corrected equations - shown hereafter with strikethrough for deletions and underlining for additions, and with the correction further identified thereafter in brackets - should read as follows.

Page 5, line 4: then, $(-2\gamma + \sqrt{\gamma})/42 = (1-\gamma^2)/\gamma$ [the γ should be a 2]; and

Page 5, last line: $P = (-2\gamma + \sqrt{\gamma})/2 = (-2 \times 1.6 + \sqrt{1.6})/2 = (-3.2 + 1.264)/2 = -0.968$
[the last number is a negative].

Therefore, please consider these corrections in conjunction with the Remarks provided in the Response filed December 12, 2005.

Further and favorable action is solicited.

Respectfully submitted,

Date: February 10, 2006
